How to setup TEXT notifications

Setup Text Notifications

- Logon to TeamUnify Account

    - Select myAccount

    - Enter your Phone Number (for texting) in the SMS field

    - Select your carrier from the drop down list.

    - Save the changes

- Validation of Text

    - The receiver of the text will get a text message from the TeamUnify system. There will be a URL (Link) to click on. NOTE: The link will not be a complete link-- Known issue from TeamUnify.

        - Copy the url www.teamunify.com/rest/sms/verify/

        - Skip the (Con't) 2of 2 line, then add the remaining URL to the above portion of the URL.

            - It will look similar to this   " / a/2162263/9944 " without the quotes and numbers will be different

        - Option: Try to reply to the text with the code provided. The last numbers of the URL
